# ABOUT US

Star Conferences stands out as an exceptional organization, boasting a wealth of experience in organizing international conferences in cutting-edge fields.

Our unparalleled expertise provides the ideal setting for esteemed speakers, distinguished researchers, and prominent scientists to foster collaborations essential for driving worldwide progress.

# ABOUT THE CONFERENCE

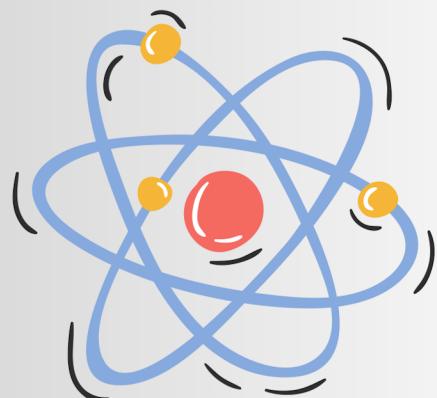

Star Conferences is thrilled to announce the upcoming World Science Forum, a premier global event aimed at empowering researchers and driving positive change in scientific communities. This prestigious event is set to feature a series of impactful sessions designed to inspire and equip researchers and scientists to excel in their research career.

The conference will feature a series of impactful sessions designed to address key topics in ***Chemistry, Biological Sciences, Physics, and Environmental Sciences***

# PROGRAM TRACKS

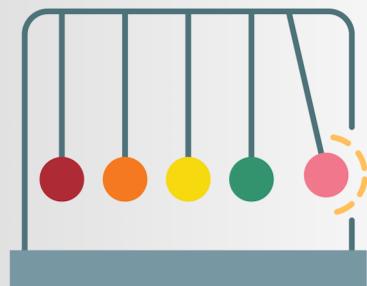

## Chemistry

- Green and sustainable chemistry
- Organic Synthesis: New strategies, reagents, catalysts
- Synthesis of Natural Products
- Medicinal Chemistry and Drug discovery
- Polymer Chemistry
- Forensic Chemistry
- Industrial Chemistry
- Petrochemistry
- Clinical chemistry
- Material Chemistry
- Nanochemistry
- Carbohydrate Chemistry
- Biochemistry
- Analytical and Bioanalytical Chemistry
- Theoretical and Computational Chemistry
- Chromatography Techniques and Applications
- Separation Techniques
- Chromatography

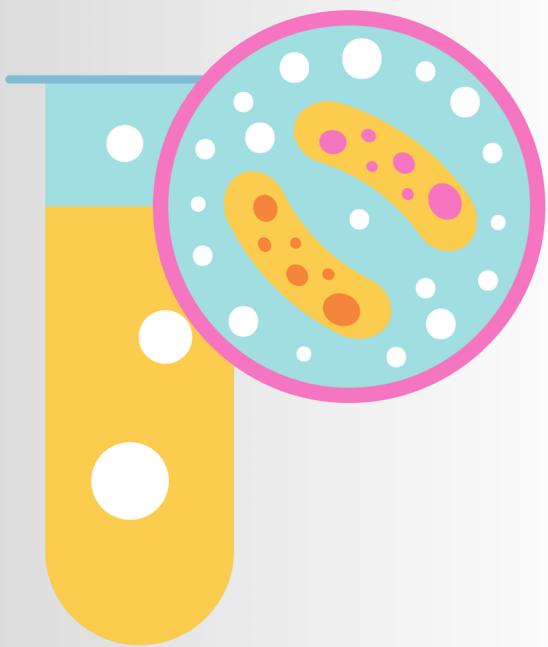

# Physics

- Quantum computing and quantum information science
- Dark matter and dark energy
- High-energy particle physics
- Condensed matter physics: novel materials with unique properties
- Astrophysics and cosmology
- Quantum mechanics and its applications
- Artificial intelligence and machine learning in physics
- Fusion energy research
- Optics and photonics: advanced imaging techniques, photonics-based communication, and quantum optics
- Material Science, Nanophysics and nanoscience
- Advances in Instrumentation and Techniques
- Fluid Mechanics
- Thermodynamics
- Plasma Physics
- Atomic and Molecular Physics
- Electromagnetism and Micro Electronics
- Medical Physics
- Biophysics
- Meteorology and Aerodynamics

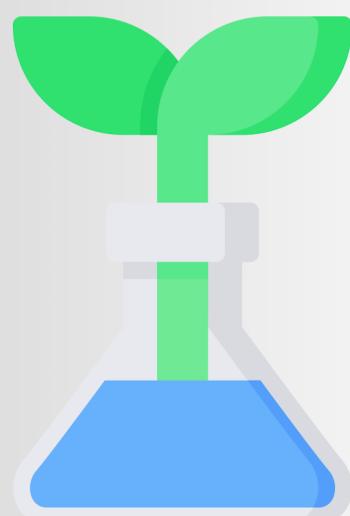

## Biological Sciences

- CRISPR and Genetic Engineering
- Prion Biology
- Cancer Biology
- Synthetic Biology
- Epigenetics
- Infection Biology
- Biomaterials and Tissue Engineering
- Nanobiology
- Structural Biology and Bioinformatics
- Genomics and Proteomics
- Advancements in Vaccine Development
- Stem Cell Research and Gene Therapy
- Regenerative Medicine
- Disease Biology
- Marine Biology
- Epidemiology and Coronavirus
- Neurobiology

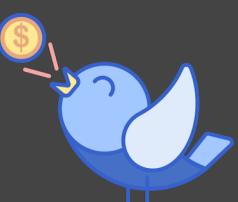

## Environmental Science

- Climate Change and Global Warming
- Biodiversity Conservation and Ecological Restoration
- Environmental Pollution and Remediation
- Sustainable Resource Management
- Environmental Policy and Governance
- Environmental Monitoring and Modeling
- Human-Environment Interactions
- Urban Environmental Science
- Environmental Health and Toxicology
- Climate Resilience and Adaptation
- Environmental Economics and Policy
- Sustainable Development
- Environmental Ethics and Philosophy
- Indigenous Knowledge and Traditional Ecological Knowledge (TEK)
- Ecotoxicology
- Water Quality and Watershed Management

	 <b>SUPER EARLY BIRD</b>	 <b>EARLY BIRD</b>	 <b>STANDARD</b>
<b>SPEAKER</b>	\$ 599	\$ 699	\$ 799
<b>DELEGATE</b>	\$ 399	\$ 499	\$ 599

Unlock exclusive savings and secure your spot at an unbeatable price with our "Super Early Bird" offer.

Act fast and **LOCK** in your discount by reserving your spot through a **token amount** today and obtain 15 extra days for validity on "Super Early Bird" registration.
